

## EPICKUBES DELTA-9 USER GUIDE

Introducing Our Famous EpicKube Hemp-D9 **Federally Legal, U.S. Compliant,** Gourmet Caramel and Fast-Melt Gummies.

The key to having an enjoyable experience with our EpicKube Delta-9 products is taking the proper dose. Ensuring that the effects that you feel are strong enough to be noticeable, but not so strong that they're overwhelming.

This is especially true with our famous Fast-Melt 15:15 Gummies and our 5:50 Gourmet Caramels.

### E.K. HEMP DELTA-9 THC DOSAGE & E.K. HEMP DELTA-9 THC STRENGTH

First things first: it's always good to be reminded that there is a difference between dosage and strength, with each factor needing to be carefully considered since they have an equal role in how much Hemp Delta 9 you end up consuming per use.

- 📺 **Dosage:** Refers to the amount of hemp CBD and Delta-9 THC that you take in each product, such as one full one full 15:15 gummy or our famous 5:50 caramels.
- 📺 **Strength:** Refers to how many milligrams of actual Delta-9 THC are in a serving size. For instance, our EpicKubes fast-melt gummies are a strong 15:15 meaning 15 MG of Hemp CBD and 15MG of Delta 9 THC. Our famous Epic Kube Caramels are 50 MG of Hemp CBD and 5MG of Delta 9.

### HOW MANY EPICKUBES CAN I TAKE?

There are some factors that can influence how much you take. Everyone is unique, and cannabinoids can affect us all differently. Besides that, some of us prefer a milder experience, while others want a powerful psychoactive effect.

### # 1: YOUR TOLERANCE TO THC

All [tetrahydrocannabinol \(THC\)](#) compounds are similar enough to one another that your tolerance to other THC compounds can influence how well you tolerate delta 9 THC. For instance, if you've been taking moderate to high doses of THC for a long time, then delta 9 will be more easily tolerated than if you've never taken any THC before in your life. Consider your experience with other THC compounds to decide what your tolerance is likely to be.

## # 2: YOUR DELIVERY METHOD

EpicKubes Hemp -Delta-9 products come in a variety of delivery methods, just like other cannabinoids. Each delivery method has its own level of potency based on how effectively it absorbs into the body. Our Gourmet Caramels and Gourmet Fast Melt Gummies (Lemon Burst, Green Apple, Orange Creamsicle, Wild Cherry, Blue Razzberry) work quickly.

This means that both our 15:15 mg Delta-9 EpicKube fast melts and our famous 5:50 Caramels will produce effects **within 5-10 minutes**.

## # 3: YOUR COMFORT LEVEL

Some people are a bit more cautious when trying out a new cannabinoid, so while a certain dosage is considered standard, they may want to start with a lower one just to observe the effects.

## # 4: STRAIN TYPE

Like we touched upon earlier, the strain can influence how a delta 9 product makes you feel. This isn't just in terms of the specific effects, but the potency as well, as some strains are just known to be more potent than others due to their compound configurations. All Epic Kube products feature our proprietary, hybrid distillate blend of Indica and Sativa. We then micellize (pre-digest) this blend so it has a "synergistic" effect with advanced absorption, so you get the best of both.

## WHAT IS THE BEST DOSAGE FOR EPICKUBES HEMP D9?

For the general user who wants to enjoy all the wellness benefits of EpicKubes without getting too high. If you're a beginner who is exploring EpicKubes Delta-9, try these guidelines to start.

## EPICKUBES HEMP DELTA-9 THC GOURMET CAMELS

With EpicKube Delta-9 caramels, it's easier to dose out the 5MG D9 cannabinoid because you are getting 50MG of Hemp CBD with the 5MG of THC.

**Introduction Dose: 1/2 Caramel**

**Psychoactive Dose: 1 Caramels**

**Very Psychoactive Dose: 1-2 Caramels**

**Gourmet D9 Caramels  
Vegan**

# EPICKUBES HEMP DELTA-9 1 5: 15 GOURMET FAST - MELTS

EpicKubes Delta-9 fast melt gummies are quite potent as they absorb very efficiently into the body acting as a fast melt delivery.

**Introduction Dose: ½ Gummies**

**Psychoactive Dose: 1 Gummies**

**Very Psychoactive Dose: 1-2 Gummies**

## CONSIDER YOUR DOSAGE FOR YOUR WELLNESS BENEFITS

Everyone has their own goals in mind when taking EpicKube D-9 products. Some want a great, fun “Head Space”. Some want help with Sleep, Stress, Anxiousness, Pain, Inflammation and Overall Better Health.

Just remember that since Delta-9 is an intoxicating compound, you’ll need to be mindful after taking it. For example...avoiding driving and operating heavy machinery and be aware of the situation you are in. Over time, you can adjust the dosage as your body gets used to the distinctive nature of this unique cannabinoid.
